MEET THE CANDIDATES

VOTE!!!

FRED CHICCONO --- 437 Canal Way West: My wife, Catherine, and I have been homeowners in the Salt Pond since 2005. Six years ago, I retired from a government-contracting firm which specialized in systems engineering and computer-related support. I had served as Executive Vice President and Chief Operating Officer of the firm. Currently, I am President of the Skipjack Village Association in Salt Pond and a member of the Salt Pond Homeowners Association Engineering Committee.

I am strongly committed to our lovely community and would like to serve on the Salt Pond Homeowners Association Board of Directors. I believe that my background in Applied Mathematics, Engineering, and Physics as well as the executive positions I have held both professionally and in a volunteer capacity will allow me to oversee, advise, and/or assist any committee in the Salt Pond that needs attention. What makes the Salt Pond Community attractive to residents and visitors is its well-maintained homes, common areas, and facilities. I welcome the opportunity to contribute my time, energy, and enthusiasm to maintain and improve the high quality of life we have come to expect in the Salt Pond.

BILL JOHNSTONE --- 404 Canal Way East: My wife, Judy, and I bought our house in June 2001 and substantially renovated it in 2007/08. Originally from Rockville, MD, we have two daughters. I have an undergraduate degree from American University and a law degree from George Washington University. I am a member of the Maryland Bar and am a veteran of the U. S. Air Force. Judy retired as Professor Emerita from Mount Saint Mary's University where she served as Chair of the Education Department.

I retired after 34 years with the United States Postal Service where I served for nine years as Assistant Postmaster General for Government Relations. My last position was Secretary and Counsel to the presidentially-appointed Board of Governors. I understand that a board's responsibility involves the preservation of assets while planning for the future. Most importantly, Board members must do whatever necessary to understand and reflect the views of its constituency, in this instance the Salt Pond homeowners.

JEFF RUPPRECHT --- 714 Fox Tail: My wife, Laurel, and I have been Salt Pond owners since 2000. We built our current residence in February 2004 and since January 2008 have been full-time residents of the Salt Pond. I am a retired federal employee, having served as a U.S. Army officer and a civilian employee of the National Security Agency for 39 years. I graduated from Bucknell University with a BS degree in electrical engineering and hold Masters Degrees from both Johns Hopkins University and the National War College of the National Defense University. During my government career I held a variety of management and leadership positions.

In private life I have been a member and officer of church administrative boards and served as a member and president of the condominium association of our previous residence in Norfolk, VA. In both professional and private life, I have been known as a problem solver and for my ability to broker agreement among parties with differing interests.

As a Salt Pond resident and board nominee, I am dedicated to maintaining the quality of life at Salt Pond by promoting the sense of cooperation and caring which characterize this welcoming community. I am also committed to assuring that the numerous facilities and amenities at Salt Pond remain in top notch physical condition, while continuing to hold our yearly assessments at a reasonable rate.

LOEDA STANGO --- 613 Bethany Loop: I was appointed to the Board in June 2009 to fill a vacancy. I am currently the Board Secretary and am the Board liaison for the Landscape Committee. This is my third year as Chairperson of the Landscape Committee. I also have been a member of the Salt Pond Plaza Committee. I have had the pleasure of working with many dedicated volunteers in the community and with their help will continue to improve the appearance of the Salt Pond while striving to keep costs down.

Personally, my husband, Al, and I became permanent residents of the Salt Pond community in 1998. In addition to my work on the Board, I have held various positions in the Women's Club, including co-chair, program chair, and secretary. I received my BA degree from Morris Harvey College (now Charleston University) in Charleston, WV with a major in Sociology/Psychology. For the last 25 years of my career, I was a manager working in accounting, separations, and access charges handling settlements between the local and long distance telephone companies. My last position with Verizon was in the Legal and Federal Regulatory Department writing briefs that pertained to Federal Communications Commission rulings as well as writing methods for accounting procedures for separating cable service and telephone service when both were on the same telephone line.
