March 18, 2009

Dear Homeowners,

We are pleased to inform you that the storage racks for the kayaks/canoes will be available starting April 11, 2009 at the Salt Pond Beach area. As was communicated to all Salt Pond homeowners in September 2008, we were informed by DNREC that kayaks, canoes, etc. cannot be stored on the ground in the environmentally protected Salt Pond common beach area. Therefore 50 slots have been constructed at this site.. We will be allocating one space to interested homeowners on a first- come, first-served basis until the allotted slots have been assigned. There will be a \$20.00 per season rental fee for the space. An additional \$20.00 will allow you to store your kayak on the racks over the winter. Each watercraft will need an identification number and these can be purchased by mail from Mary Davis at the above address or in person from the attendant on duty. We will accept cash or check and the identification numbers may be picked up as of April 11, 2009 at the Salt Pond Fitness Center. Only those homeowners who are current on the assessments will be allocated a slot. The Recreation Committee has assumed responsibility for administration of the kayak area... **ANY KAYAK, CANOE, OR WATER CRAFT LEFT ON THE GROUND WILL BE REMOVED AT THE OWNERS EXPENSE.** All homeowners are still permitted to use the beach but your watercraft must be carried in and out after each use. SPHA will not be responsible for watercraft stored in this area. Thank you, Recreation Committee

Please submit this form when applying for a slot.

Name _____

Salt Pond address _____

I will be storing a: kayak _____

Canoe _____

For official use only: Slot no. _____ Date _____
